

Billing Information

Like many physicians, ACAMG bills separately for professional services provided by our physicians. Their professional services are not included in the facility costs you pay. We receive your insurance information from the facility where your procedure is performed. We will bill your insurance first, and then if you have any co-insurance, deductible or non-covered service after your insurance adjudicates the claim, you will receive a bill for your share of the cost based on our contracts with the insurance providers and your benefits.

The following summary will help inform you of our participation status with various plans and your financial responsibility.

ACAMG participates with the following plans (this is not an all-inclusive list):

Aetna
Anthem Blue Cross
Brown and Toland Medical Group
Blue Shield of CA
Blue Cross/Blue Shield plans that are part of the Blues PPO Network
Cigna
Champus/TriWest
Healthnet
Medicare
Medi-Cal
Multiplan
Mills Peninsula Medical Group (MPMG)
Sutter Select
United HealthCare
Workers Compensation

Although ACAMG participates in a large number of PPO and HMO plans that are offered in this area, California State Law AB72 was enacted in July 2017 to protect patients from costs associated with out-of-network health services. This legislation caps a patient's cost-sharing at the in-network market rate when a patient receives services in an in-network facility by an out-of-network provider. Although not every plan is covered by the state law (excludes self-funded plans, Medicare, Medi-Cal, out-of-state plans, or other products regulated by federal law), many of the commercial plans will fall under the rules of this law.

QUESTIONS ABOUT YOUR ANESTHESIA BILL or COST?
